ANTIOCH, ILLINOIS, THURSDAY, AUGUST 14, 1969

VOL. LXXXIV. NUMBER 8

'Skip' Keissling, department adjutant of the Illinois American Legion presents a citation for publicity written regarding the American Legion's 50th Anniversary to Mrs. Edward Jahneke, 10th District and 2nd Division Publicity Chairman. The event took place at the Palmer House in Chicago during the state convention.

Shoe Box Balloon Race On

The first annual World-Wide Balloon Race, sponsored by The Shoe Box in Antioch, will begin today, August 14.

Boys or girls ages 1 to 14 will be supplied with helium filled balloons with an attached card to be filled out. The balloon must be released.

The cards that are returned to The Shoe Box from the farthest distances will receive prizes.

The contest will end Saturday, Sept. 13, and all cards must be received by The Shoe Box by Thursday, Sept. 27.

First prize for the farthest distance will be a new bicycle, second prize will be a Polaroid Camera and third prize will be a Walkie Talkie.

Rotary Club Raises \$1,600.00 Fund

The Rotary Club of Antioch used Fire Extinguishers for a fund-raising project. A total of \$1600 was raised.

The program was set up in teams. Four members to a team and each team was given a name such as The Fire Brigade, the Bucket Brigade, False Alarms, Hatchet Men, Flames, Fire Plugs, Infernos, Ladder Men and Siren.

As a reward the winning team consisting of four Rotarians and their Rotary Anns (wives) were given a "Night on the Town" at the expense of the losing teams.

The winning team "The Bucket" (Continued on page two)

Grass Lake Board Sets Meeting

The staff of Grass Lake School will meet on Thursday, August 28 in order to prepare for the coming 1969-70 school year.

Superintendent William Hart, stated that there are two new members to the staff this year. Phillip III will be teaching 5th grade. He is a graduate of Lake Forest College.

Mrs. Evelyn Knappe is a graduate of Capital University. She will teach vocal music in grades 1 through 8.

Hart also said there is a need for a first grade teacher and possibly a 2nd grade teacher because of increasing enrollment.

Parents with students new to District 36 may register their children any weekday between 8:30 a.m. and 4:00 p.m. at the school office.

Registration for all students will be held Friday, August 29, in the school gym from 8:30 to 11:00 a.m.

Registration fees are \$9.00 per student and a family having four or more children in school will pay \$6.00 per child. Voluntary student insurance is available at a cost of \$2.50 per child.

Supt. Hart reminds parents that all kindergarten, all new 1st graders to the district, and all fifth graders must have a physical and dental examination before entering school. Physical and dental forms are available at the school, if any parent did not receive them through the mail.

The school buses will begin their runs at 8:15 a.m. and begin returning children at 9:15 a.m. on registration day.

Parents may bring their children, register them, and take them home, if they prefer.

Pollution Battle Continues

About 50 persons, representing Lake Michigan shoreline communities, park districts, State agencies and the North Shore Sanitary District attended a two-hour meeting Wednesday, Aug. 6, called by the Lake County Health Department to discuss how to halt pollution of bathing beaches.

Municipal and park district beaches along the lake, with the exception of Illinois Beach State Park, have been closed indefinitely following a recommendation of the Board of Health late last month.

Much of the discussion revolved around plans of the sanitary district to cope with the problem of limited treating capacity during periods of heavy rain, such as were experienced through the spring and early summer this year. A high bacteria count in Lake Michigan shore water resulted when untreated sewage by passed the plants.

Raymond Anderson, director of the sanitary district, said work is underway on some phases of the \$35 million expansion and improvement program but the target date for completion is still July 1, 1972. He said three natural phenomena occurred this year, over which the district had no control. These were: exceedingly heavy rains, more easterly winds and high levels.

Anderson told the group that east and east-northeast winds cause a collection of shore water in a pocket reaching from Racine to Montrose Harbor. "Normally," he said, "prevailing winds in summer are from the west-southwest which move the water away" (Continued on page two)

Clavey Reports Rise In Coroner Caseload

Lake County Coroner Orville S. (Pat) Clavey has reported that deaths handled by his office have reached a total of 269 for the first six months of 1969—some 27 over last year.

Heart deaths led the list with 141, but in the accidental category some 50 traffic deaths were reported.

A total of 26 suicides were reported to the coroner's office for the period and crib deaths rose to 11.

Drownings were next in the accidental category with 10, followed by 4 homicides, 2 in plane crashes, 2 in a house fire and 2 in explosions in the violent death categories of stabbing, trailer fire, cave-in, police shooting and accidental shooting along with pedestrian-train.

Home falls accounted for two deaths during the period and others in the coroner's categories included:

Cancer, 4; Hepatitis, 1; Meningitis, 1; Pneumonia, 1; Diabetes, 2; Cirrhosis, 2; Stillborn, 1; and Ulcer, 1.

Clavey said his office would do everything it could to assist law enforcement agencies in the county in an effort to cut down traffic deaths, which have increased to 58 since the coroner released his report.

He also warned parents to check more often on their "little ones" as crib deaths are on the rise.

"Only the parents can keep the crib 'deaths down,'" the coroner admonished.

He also was concerned about the number of drownings, pointing out that it takes only a minute to slip a life jacket on, especially when in areas not guarded by lifeguards.

The coroner made it clear that he was not trying to alarm the public of Lake County but he wanted them to be aware of the alarming increase in deaths that have fallen under his jurisdiction.

He pointed out that another report will be forthcoming for the entire year about next Jan. 15.

Midnight Madness Sale Near

Antioch residents get ready. The merchants in Antioch have been struck by what some call "moon-madness."

But, whatever it is, shoppers will be the winners when they see the bargains that are going to be offered for the merchants' Midnight Madness promotion.

On Aug. 25 the stores in the area will close from 6 p.m. to 8 p.m.

But it will be only to allow the merchants to prepare for their re-opening at 8 p.m. and sales until midnight.

The merchants invite all night owls and sleepwalkers to make a late date to come shop and save.

Reckers To Attend School

Preston J. Reckers, Asst. Vice President, State Bank of Antioch, will leave Sunday for two weeks' attendance at The Graduate School of Banking at the University of Wisconsin, Madison, to be held August 17-30, 1969.

This will be his second year at the school, which requires two weeks attendance each year for three years to earn a certificate of graduation. Between resident sessions, students are required to do extension work involving problems in all phases of banking.

The School is sponsored by The (Continued on page three)

Six persons were injured when this auto plowed into the front window of the Sequoit Harbor Restaurant on Rte. 173 west of Rte. 59. A patron who had just finished breakfast in the cafe was the driver of the auto. (photo by Joseph Rush)

Hills Gets New Post At Bell

An Antioch resident, Walter N. Hills, has been promoted by Illinois Bell Telephone Company from communications maintenance man to engineer in the Skokie Division office. He will en-

Walter Hills

gineer crossbar dial equipment. A graduate of Antioch High School, Hills spent 3 years with the Air Force in Germany before joining the company as an installer-repairman in Waukegan in 1964.

Hills and his wife, MaryAnn are the parents of three daughters: Diane, 10, Holly, 8, and Karyn, 6, students at Salem Consolidated Grade School. They attend Antioch Methodist Church. Hills has two brothers with Illinois Bell: Raymond who works in the Methods and Procedures Department, and Donald, a communications maintenanceman in Antioch.

Teacher Openings In Diocese

One hundred eight full time openings remain to be filled in Chicago and suburban Catholic elementary schools, reports Philip (Continued on page two)

Auto Hits Cafe

Traffic accidents involving several persons from the Antioch area occurred during the past week.

Six persons were injured when an automobile smashed through the plate glass window last Friday and struck three tables in a restaurant at Sequoit Harbor, Rte. 173 west of Rte. 59, Antioch Township.

Injured were Fred Cremieux, 71, Bernice Cremieux, 68, and Edna Cremieux, 50, all of Chicago, Leroy F. Peterson, 66, and his wife, May, 66, both of Park Ridge, and Helen Cannon, of 1009 Larsen Ave., Antioch.

Driver of the car, Nels Westergard, 80, of Racine, told sheriff's deputies that the auto went forward when he went to start the vehicle after having breakfast at the restaurant.

The car traveled over a six-inch curb, hit the front of the building and then went through (Continued on page three)

Install Robert Berg As New Grand Knight

On Tuesday, Aug. 5th, St. Peter of Antioch, Council 3800, conducted its annual meeting, at which the election and installation of new officers was held.

The following officers, newly elected, were installed by Jack Kelly, District Deputy, assisted by Harry Bastien, 4th Degree District Navigator:

Chaplain — Father Henderson succeeds himself.

Grand Knight—Robert Berg, succeeds Joseph Hellstern.

Deputy Grand Knight—Jim Lentine succeeds Frank Szryniel.

Chancellor — Henry DeYoung, succeeds Joseph Hellstern.

Recorder—Jimmy Quedenfeld, succeeds himself.

Financial Secretary — Richard Klean succeeds himself.

Treasurer — Daniel Dugenski, succeeds himself.

Lecturer—Bob Doyle, succeeds Stanley Szymanski.

Advocate—John Horan succeeds himself.

Warden—Larry Lang succeeds himself.

Inside and Outside Guards—John Bajek and A. J. Belongia succeed themselves.

Trustee for 1 year—Anthony Nicoletti

Trustee for 2 years—Oscar Hendrickson.

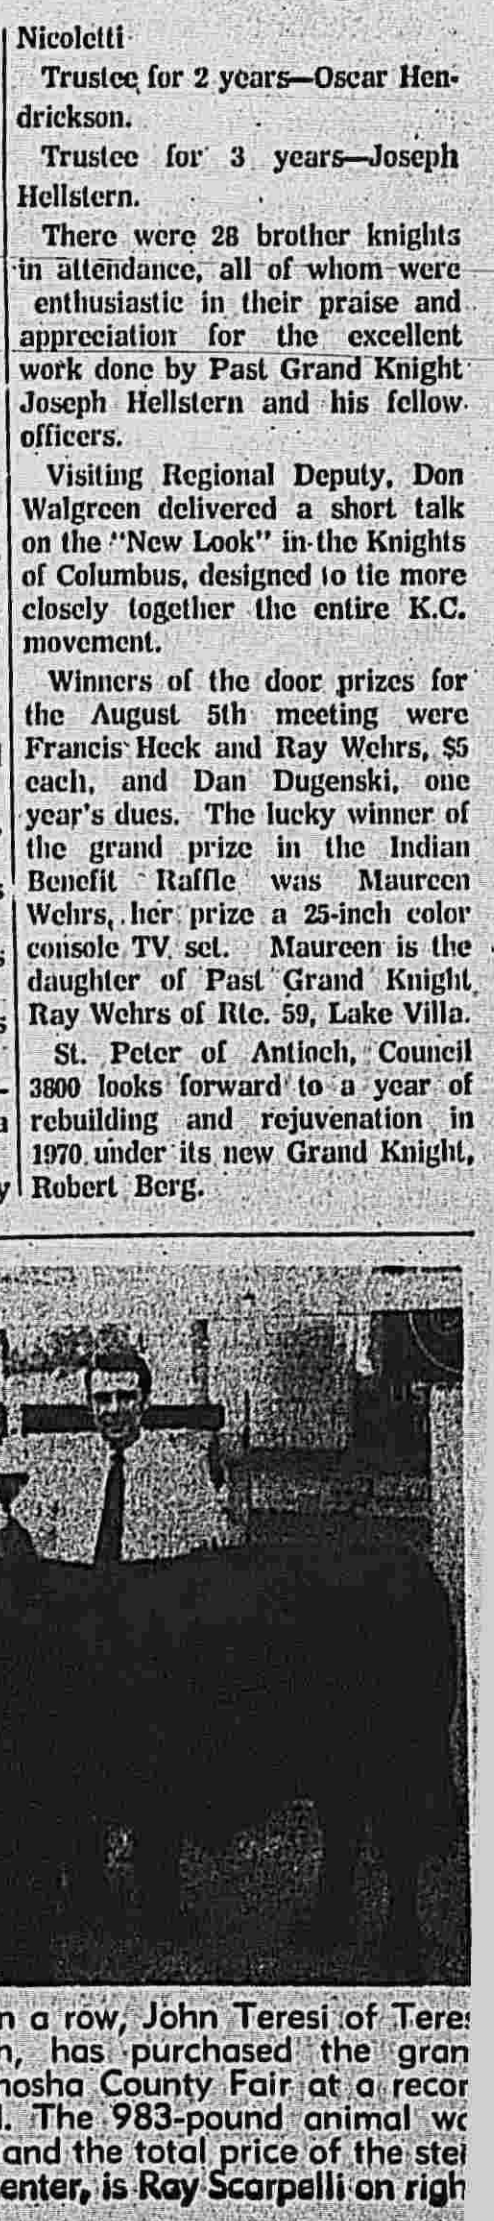

Trustee for 3 years—Joseph Hellstern.

There were 28 brother knights in attendance, all of whom were enthusiastic in their praise and appreciation for the excellent work done by Past Grand Knight Joseph Hellstern and his fellow officers.

Visiting Regional Deputy, Don Walgreen delivered a short talk on the "New Look" in the Knights of Columbus, designed to tie more closely together the entire K.C. movement.

Winners of the door prizes for the August 5th meeting were Francis Heck and Ray Wehrs, \$5 each, and Dan Dugenski, one year's dues. The lucky winner of the grand prize in the Indian Benefit Raffle was Maureen Wehrs, her prize a 25-inch color console TV set. Maureen is the daughter of Past Grand Knight Ray Wehrs of Rte. 59, Lake Villa.

St. Peter of Antioch, Council 3800 looks forward to a year of rebuilding and rejuvenation in 1970 under its new Grand Knight, Robert Berg.

Ray Nordling, left, Antioch News pressman, and Donald Gaston, production foreman, look over the latest color advertisement printed by the Antioch News in its own back shop. The ad is for the A&P store in Antioch and all the work is done in the shop and run off on our own presses.

EDITORIAL

Funds Are Needed

The Antioch Rescue Squad is once again in need of funds.

The call has gone out through the area for the annual drive.

The squad has an abundance of trained men and its equipment is in top-notch shape.

The squad, however, constantly needs funds for replacement and upgrading of equipment as well as maintenance and supplies such as oxygen, gas, and medical supplies.

Insurance costs also take a heavy toll of the money available for operation of the squad.

The roster adds up to 124 years of volunteer, experienced service that is available to residents 24 hours a day.

We sincerely hope that they are never needed, but they are there when the need does arise.

Last year the Antioch Rescue Squad served 654 persons who needed their help.

There is no set amount that is requested. It all goes to good use.

So, when you get your letter from the squad, think about the time you might need it.

And dig deep.

Tax Relief

At last the middle man—the taxpayer—is going to get a break.

Gov. Richard Ogilvie has signed into law a measure that will give the overburdened wage earner a breather.

He has signed into law a measure sponsored by 31st District Sen. Robert Coulson that will allow a taxpayer to exempt one auto and one household of furniture from his personal property tax.

The personal property tax is probably the most unfair tax ever devised by man because it is not uniformly administered and you continue to pay taxes on items that you have already paid taxes on for years and years.

If you have two autos, then the taxpayer decides which one will be exempt.

This is another break if you drive a new car for pleasure and an old wreck for transportation. And it might not stop there.

Because pending before the people is a chance to eliminate the law altogether.

In November, 1970 the people will vote on a proposed constitutional amendment that would knock out the entire thing.

We can hardly wait for that day to come.

Now if we can only convince our elected officials that we don't need any more services—which they say are for our own good—except maybe to knock out some other tax.

You pick one.

We will be glad to back you up.

Teacher Openings..

(Continued from page one)

D'Appley, director of teacher recruitment for the Chicago Archdiocese's 425 elementary schools.

Two-thirds of the openings are located on the city's south side and south suburban districts, with only a few openings available for men. The majority of openings are on the primary level, kindergarten through third, and some half-day positions are available on the city's far south side.

Black communities of Lawn-dale, Garfield Park and Wood-

lawn, have reported openings in Grades 4-8.

Illinois' Lake County reports five primary openings in Waukegan, Wadsworth, Fremont Center and Lake Villa.

Rotary Club....

Brigade", captained by Frank ReCupido and manned by Irv Pedersen, Cliff Van Der Werker and Ted Costoff selected the Play Boy Club of Lake Geneva, Wis., for their well earned celebration.

Your Congressman Reports....

By Cong. Robert McClary

Discussion of family planning have moved from the "hush-hush" stage to the open forum of the United States Congress.

In a formal message to the United States Senate and House of Representatives President Nixon has reiterated alarming facts concerning population growth—and has requested the Congress to provide legislative and budgetary support for a comprehensive response to a problem that is both American and world-wide.

After noting that there were one billion people on the earth in 1830 and two billion a century later, the President disclosed also that—in just 30 years—a third billion was added. He predicted that a fourth billion will be produced in a mere 15 years and—further—by the year 2000 a billion human beings will be added to the world population every five (or less) years.

It is largely in response to our increased population that there has developed a general awareness of the need for controlling pollution and otherwise conserving the human environment. In addition, the oceans and every possible land area are being explored for potential agricultural development in order to meet the problem of feeding the added billions who are expected to inhabit the earth. Even the recent moon exploration may be included in this quest, although sustaining life on the moon for any extended period would seem impossible at this time.

The President's message emphasized the more practical solution of controlling population growth by stepped-up research on birth control methods and by expanding family planning services and information which can be utilized by all mankind. The President pointed out that most of the estimated 5 million low-income women of child-bearing age in this country do not now have adequate access to family planning assistance.

The President has requested the Congress to establish a Commission on Population Growth and to authorize the Department of Health, Education and Welfare (HEW) working with the Office of Economic Opportunity (OEO) to expand and improve family planning information and services for the benefit of those most in need of them.

Since virtually unmanageable population growth is occurring in other countries of the world—notably Southeast Asia and Latin America—the President has pledged this nation's cooperation with the United Nations and other international bodies. Also, he has pointed to the important resources of private organizations and university research centers in family planning efforts both at home and abroad.

Awkward questions related to religious beliefs may have stifled population control activities in the past. However, the import of the President's message is to make birth control and family planning programs entirely voluntary and educational. This approach should avoid any conflict with religious scruples or feelings.

While the President's message may not have revealed new information, the public acknowledgement of the impending national and world problem of population growth is new, indeed. In addition, the Presidential recommendation to the Congress suggest clearly that the Members of the United States House and Senate, as representatives of the American people, must take appropriate steps to assure that (despite man's explorations of outer space) the planet "Earth" shall not become so over-populated that it cannot sustain life in an environment which has enabled mankind to survive to the year A.D. 1969.

Says the Phillips (Wis.) Bee, "Our feed dealer tells us that he is currently selling more sunflower seeds than he did last November. He's been averaging 1,000 pounds a week. It all goes to outdoor enthusiasts who are feeding the squirrels and the birds.

From fossils that have been found we now know that giant beaver, 7½ feet from nose to tip, once lived in North America.

Letters to the Editor

August 6, 1969

My name is Lowell Webb Brown and I am an Advertising Director of the AMARILLO NEWS AND GLOBE-TIMES. My mother was Josie Bronson Webb, born 1888 in a little place called Hickory Corners, which I understand was a few miles from Antioch.

I have heard many glowing stories of Lake County and the fine folks in it, but I don't care to reminisce the past history. I only have one question. Does anyone in your great Lake County remember a food which, when cooked, was called "Cornodgers"? Mother used to cook them for us, and how I enjoyed them! They were a type of corn dumplings as I remember.

If you find anyone who remembers the recipe and would be kind enough to pass it on to me, I would be much obliged.

Thank you in advance for your consideration. If I can ever be of help to you here in Amarillo, please don't hesitate to call on me.

Cordially yours,
Lowell W. Brown

Pollution Battle...

(Continued from page one)

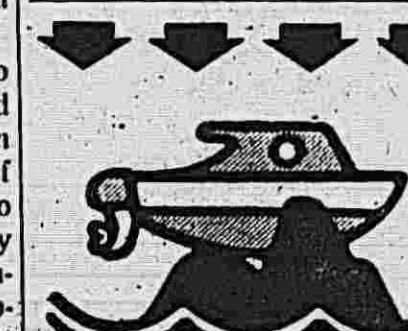

from shore, dissipate pollution and reduce turbidity."

On a closely connected issue, Anderson told the mayors present, "We (the sanitary district) have a responsibility to treat sewage. The municipalities have a responsibility to handle storm water." Anderson pointed out it is against the law to have storm and sanitary sewers combined, yet the problem is widespread. He asked the cooperation of all the municipalities within the sanitary districts to initiate corrective measures. He said the district has a program to correct the by-passing situation but this does not include separation of storm water which is a costly venture.

State Representative John H. Kleine, (R-Lake Forest) chairman of the Northern Illinois Water Resources and Conservation Commission, announced he is asking the State Attorney General to file a friendly law suit against the sanitary district in order to establish firm dates on completion of the improvement program. Further, Kleine says he will pursue the possibility of obtaining a \$25 million federal grant for the district's multi-phased project, and also seek funds.

At the end of the session Waukegan Mayor Robert Sabonjian announced he would open the city's bathing beaches effective Thursday, August 7. Sabonjian said he is concerned with the health of residents but believes the recent period of fair weather has effectively reduced the hazard of pollution. He said announcements would be made public when conditions change.

Meanwhile, the County Health Department did not budge from its recommendation, based upon bacteriological counts, that all beaches remain closed indefinitely.

Pet Skunk Bites Woman, No Rabies

An Ivanhoe woman who was bitten by a pet skunk fortunately escaped contracting rabies.

In reporting the incident, Lake County Rabies Inspector Dr. John Wawirka said, "She was lucky. The skunk is the most notorious carrier of rabies in the animal kingdom."

The veterinarian said tests on the head of the dead skunk, shot by the woman's husband after the bite was inflicted, proved negative. The only method of detecting rabies is by examination of the animal's brain tissue.

Dr. Wawirka again warned area residents about the dangers involved, particular in handling skunks. "When you see one of them out in the daytime it is systematic of illness. Often a rabid skunk will seem dazed, uncoordinated or paralyzed." He went on to say that people contemplating buying a skunk for a pet should be careful as to the origin of the litter and whether the seller, private citizen or pet store owner, has assurance the animal is disease free. The doctor said there is no absolute guarantee even in so-called "domestic" litters.

Long Time Resident Passes Away

Mrs. Lillian M. Musch, 82, of David Street, Antioch, passed away Tuesday, August 12, at Victory Memorial Hospital, after a prolonged illness. She was born in Chicago November 16, 1886. She had resided in Antioch since 1918.

She was preceded in death by her husband, William on September 23, 1940.

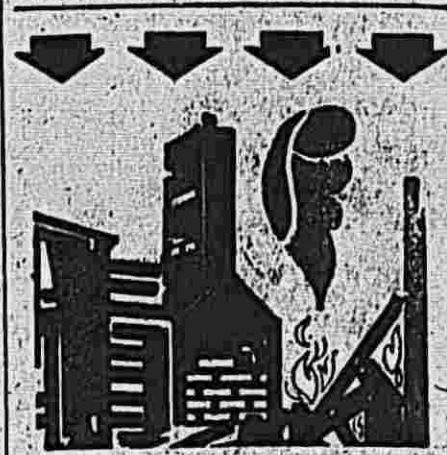

She is survived by six daughters, Mrs. Gertrude (Reinhold) Ott, Bridgeman, Mich., Mrs. Wilma (Donald) Gibbs, Florida, Mrs. Marie (Marvin) Walker, Castlewood, S. D., and Mrs. Hazel (Wendell) Britton, Mrs. Lillian (Richard) Burnette and Mrs. Dorothy (Vern) Barnstable, all of Antioch, as well as one son, William, also of Antioch.

She is also survived by 12 grandchildren and 14 great-grandchildren.

Funeral services will be held at 3 p.m. Friday at the Strang Funeral home in Antioch, with interment in Hillside Cemetery. Friends may call at the funeral home after 4 p.m. Thursday.

The family requests that donations be made to Antioch Rescue Squad in lieu of flowers.

Only one positive case of rabies has been detected so far this year in Lake County. In early January a Waukegan man's dog was bitten by a skunk and tests showed the animal to be carrying the disease. By state law the dog had to be destroyed when the owner could show no proof of inoculation.

WHAT HAVE YOU GOT TO LOSE?

Look around you! Ask yourself if you've done all you can to protect your home against the threat of fire. Think about increasing property values and home improvements or additions which may have seriously outdated your present home insurance protection. Then, find out how State Farm... the number one company in home insurance... can give you all the protection you'll probably ever need for your home.

the window. The injured were seated at the tables.

Timothy C. Dwyer, 14, of 600 Fan Rem, Lake Villa, was treated at Condell Memorial Hospital, Libertyville, after he was struck by a car on Nathan Hale Drive, south of Engel Drive in Lake Villa.

The driver of the auto, Arthur O. Rajkovich, 46, of Lake Villa, said he saw the group of boys on the pavement and the shoulder of the road but was unable to avoid them.

Two passengers were injured when an auto driven by Charles E. Ludtke, 19, of Burlington, Wis., struck another car driven by Dominick Trutti, 41, of RFD 5, Box 393, Bluff Drive, Antioch. All the injured, including Trutti and Ludtke were treated and released.

The accident occurred at Rte. 41 and Wadsworth Road when the Trutti car, according to Ludtke, pulled in front of him.

A Sturtevant, Wis., man was injured in a two-car crash on Rte. 41 and Rte. 173 when a car driven by Charles Rosenbaum, 17, of Sturtevant collided with an auto driven by Virginia Henning, 22, of RFD 3, Box 271, Antioch.

Miss Henning said the Rosenbaum car made a left turn in front of her auto.

Two persons were hurt Sunday in a two-car crash on Rte. 132, east of Deep Lake Road in Lake Villa Township.

Treated at St. Therese Hospital were Mrs. Ira Reese, 39, of North Chicago and her son, Jody, 2 years old.

Nora Ray, of 1229 Gages Lake Road, Wildwood, received a visitor last Sunday night in the person of an auto driven by Don E. Lund, 20, of Round Lake.

Lund, who told sheriff's deputies he fell asleep in his auto, struck the home after knocking down several mail boxes and shrubs.

Central States Conference of Bankers Associations, consisting of bankers associations from 16 midwestern states. Over 1,350 bankers are enrolled this year from 37 states, Puerto Rico, Central America, Argentina, and Nigeria.

The present high standards of banking service in communities throughout the country will be enhanced by attendance of local bank officers at this specialized banking school.

The faculty of over 125 instructors includes bankers who are specialists in their respective fields, practicing attorneys, business executives, economists, and members of university and college faculties. The instructors are among the most competent men in their professions. Many of them are nationally known authorities in their special lines and come from all parts of the United States.

Among the featured speakers at the 1969 session are The Honorable Paul W. McCracken, Chairman of President Nixon's Council of Economic Advisers; The Honorable Dean Rusk, former Secretary of State; Charles Bartlett, syndicated newspaper columnist from Washington, D.C.; George S. Moore, Chairman of the Board of the First National City Bank of New York; and a representative of The North American Rockwell Corporation, maker of the Apollo Spacecraft.

Dr. Herbert V. Prochnow, recently retired President of the First National Bank of Chicago, is Director of the School.

Worker Survey On In Area

A sample of residents in this area will be included in a nationwide survey of employment and unemployment to be conducted during the week of August 17 by the U. S. Department of Commerce's Bureau of the Census, according to Theodore F. Olson, Director of the Bureau's Regional Office in Chicago.

The survey is made each month for the U. S. Department of Labor to determine the number of persons with jobs, the number looking for jobs, and the monthly unemployment rate. The survey furnishes a basic measure of the Nation's economic health.

Information obtained in the survey can be used only to determine statistical totals, and facts about each person and family are kept completely confidential.

\$61,231 For Carpet In Courthouse

A contract for carpeting of the courts are the new Lake County court building was awarded to J. Blumberg, Inc. of Waukegan by the Public Building Commission on August 6.

The low bid submitted by Blumberg totaled \$61,231 for woven carpet, with padding, delivered and installed.

Also at Wednesday's session commission members were informed by a representative of Corbetta Construction Company that the courts phase of the complex will be turned over on Nov. 1.

Following construction, the installation of carpeting and all furnishings is expected to take at least another thirty days.

Begun in 1965, the Lake County courthouse complex was built in three stages. Work on the ten story administrative tower was finished in late 1967. Thereafter the old courthouse building was demolished and the new jail constructed. Prisoners were removed to the new jail upon completion of that section and the old jail razed to make way for the balance of the courts building.

Total cost of the complex was \$11,500,000 with revenue bonds to be retired over a period of 20 years.

This is the third permanent courthouse for Lake County. The first was located on what is still courthouse square in downtown Waukegan but was destroyed by fire in 1875. The main portion of the second building was erected in 1878 and other additions made in later years as the county grew in population. Several departments were moved out of the old building due to overcrowding in recent years, forcing rental of space in privately owned structures until completion of the present administrative tower.

Under the public commission act, the commission acts as landlord, and the County Board of Supervisors as tenant of the building. The entire complex is leased to the County. After the bonds are retired the Public Building Commission may go out of existence and transfer title back to the County, or continue on as manager.

'Green Belt' On Agenda This Month

When the Lake County Forest Preserve District Commission meets August 21, members are expected to debate a recommendation from the land acquisition committee to acquire a 225 acre tract of land west of Waukegan which has been dubbed the "green belt".

The property is located between the Northwestern Railroad freight line tracks and Route 41 and extending from Route 120 on the north of 22nd Street in North Chicago on the south, with some For Park land considered part of the project. Proposed acquisition of the land has been the source of some controversy over the past months.

The project would not be possible without federal matching funds. It was brought out during committee session Wednesday, August 6, that even with federal participation it may be years before all the acreage is in Forest Preserve hands.

Included in the section are woods, open lands, sloughs and ponds. Some proponents of the acquisition envision development

FACTS THAT FIGURE

The Case Of The Disappearing Cars

One minute the car is there... the next minute it has disappeared. This is the case of more than 650,000 motorists last year.

By the 1970's experts predict that over one million cars will vanish annually if the present rate of theft increase continues. When persons lose their cars, they put so many thousands on foot until their cars are recovered or replaced? Law enforcement officers say there are two types of auto thieves.

The first type steals because he has the opportunity and wants a joy ride. He is usually under 18 years of age, some are even under 10 years of age. They make a car disappear when some careless owner leaves the key in the ignition. (Last year 80% of cars stolen were left unlocked; more than 40% had been left with keys in the ignition. The owners literally gave their cars away!)

The other type of car thief is the professional. He makes his living by making cars vanish, often stripping the parts and selling them. His profession costs the public over \$200 million yearly.

How can motorists solve the case of the disappearing cars? The Allstate Insurance Company suggests:

—Always remove the key from the ignition, even when making a "quick stop" at the corner store.

—Lock the doors and close all of the windows including the vent windows.

—Luggage and other articles of value attract attention, so lock them in the trunk.

—Avoid parking on dimly lit streets or in dark obscure areas where it is easier for cars to be "spirited away."

"INSIDE MUTUAL FUNDS"

By Kenneth R. Spangler

The common stocks of oil companies, office equipment firms and electronics manufacturers occupied top positions in the portfolios of mutual funds last year, according to a recent Investment Company Institute survey.

The survey, covering 27 industry groups, was based on the latest financial reports of 40 major funds representing 75.3 per cent of the industry's total net assets.

It was noted that financial institutions and public utilities, in the top three in 1968 and ranking portfolio favorites for more than a decade, were in fifth and sixth position, respectively, last year.

The common stocks of oil companies were in first position with 12.5 per cent.

Office equipment companies followed with 11.3 per cent. The stocks of electrical equipment and electronic manufacturers were in third position. Chemicals followed in fourth with 8 per cent. Financial organizations were fifth with 7.1 per cent and public utilities were sixth with 6.2 per cent.

Others in the top 10 were drugs and cosmetics, metals and mining, aircraft manufacturing and aerospace, and foods and beverages.

For more information about mutual funds or for a free booklet, "What You Know More About Funds," write to Ken Spangler, P.O. Box 1, Chardon, Ohio 44024.

of a large recreational land providing access to water sports for thousands of residents inhabiting the more densely populated eastern half of the county.

CLC Given 'A' Rating By AACRAO

The American Association of Collegiate Registrars and Admissions Officers (AACRAO), the national association recommending and establishing transfer of credit policies of institutions of higher learning in the United States, has listed the College of Lake County as an "A" institution.

This listing will be included in the 1970 edition of the AACRAO publication "Report of Credit Given." The publication is used by Registrars and Admissions Officers throughout the United States as an aid in the transfer and acceptance of credit from other institutions.

The "A" listing, which is the highest rating, will be of great value and benefit to College of Lake County students who plan transfer at a later date to other colleges and universities in the United States.

The reporting editor, L. F. Robinson of the University of Illinois, indicated to A. Harris Moeller, College of Lake County Director of Admissions, "I am pleased to advise that the College of Lake County will be listed as an "A" institution in the 1970 edition of 'Report of Credit Given.' Since the College of Lake County is a recognized Class I community college, transcripts of record will be given full value for the beginning class of 1969."

In addition, the College of Lake County is being considered for institutional membership to the American Association of Collegiate Registrars and Admissions Officers.

Whatever happens in the years ahead, the public should clearly understand that the current debate over the military-industrial complex involves questions of survival on which there is no margin for error.

It's Not "Take The Pill -- Or Else!"

For those wise women who want to plan their families, it's not simply "take the pill -- or get pregnant!"

Ortho Research Foundation, which has the world's largest laboratories studying birth control -- says there is no one method that is perfect for every woman all the time. It urges that you discuss with your doctor which of the following methods may be best for you:

The oral method calls for a woman to take contraceptive pills for as long as you wish to prevent pregnancy. When you do want to become pregnant, you stop taking them.

The diaphragm also is a highly effective method of family planning used successfully for almost 100 years. It involves the use of a contraceptive cream or jelly in combination with a device made of soft rubber, shaped like a bowl, with a flexible spring at the outer edge.

In position, the diaphragm completely covers the cervix and holds the contraceptive cream or jelly tightly cupped over the entrance to the womb. This provides a physical, as well as a chemical, barrier that kills male sperm.

Vaginal spermicides are available without doctor's prescription in many drug stores. They come in different forms -- cream, gel or foam -- each designed to be used alone without a diaphragm.

The woman merely inserts some spermicide into the vagina just before each intercourse with a special applicator provided for that purpose. The ingredients kill the male sperm; while a "barrier" is placed over the cervix that also helps prevent sperm from migrating into the womb.

The I.U.D. -- or intrauterine device -- method differs considerably from the others because the woman using it need hardly be concerned with it at all, once it is inserted. The I.U.D. is a small, soft plastic device that

is inserted by a physician and left in the uterus for as long as a woman desires to prevent pregnancy. No other contraceptive protection is necessary once this device is in position, and the woman wearing it should be totally unaware of its presence, though she should examine herself weekly to make certain it is still in place.

The rhythm method is perhaps the simplest of all contraceptive procedures, but it is also the most difficult to use effectively. Since there are normally only 72 hours each month when intercourse can lead to pregnancy, if a woman could avoid having intercourse during this time, then theoretically she would be in no danger of becoming pregnant.

What makes this simple idea so difficult to put into practice, however, and what limits the effectiveness of this method -- is that no certain way has yet been found to determine just which days are "safe." And while this method is considered less effective than the others described here, it is more effective than no method at all!

Now available is a 32-page booklet, discussing contraceptive methods in further detail, and containing information growing from over a quarter-century of conception control research. To obtain a copy, send 25 cents to Department M, Ortho Pharmaceutical Corporation, Raritan, New Jersey 08869.

Air Pollution Measures Needed

More stringent standards governing the emission of sulfur oxides and particulate matters into the atmosphere were called for by District 31 Director Joseph Germano of the United Steelworkers of America testifying at public hearings in Chicago conducted by the Illinois Air Pollution Control Board.

"Your standards are good but not good enough," Germano said. In addition, he was critical of the target date of 1974 when the standards would become effective as being "too far off."

According to the leader of the 130,000 members of the United Steelworkers in the Chicago-Gary-Calumet area, there is no margin of safety in the proposed standards. In addition, Germano charged that other pollutants being discharged into the atmosphere are not covered at all by

standards. Germano said that under the proposed standards set by the Board, older people are more greatly affected by the sulfur oxides as shown by the increased number of hospital admissions. Increased absenteeism among workers because of pollution as well as increased costs in maintaining property are burdens borne by workers because of the low or non-existent standards.

He said, "I speak for the 130,000 members of District 31 residing in the Chicago Air Quality Region and urge the State of Illinois to adopt standards for particulate matter and sulfur oxides that will more than adequately protect the future health and welfare of the citizens of this region, and to create additional standards for such pollutants as hydrocarbons, compounds of nitrogen, gaseous metals and their compounds, and others as needed."

How to milk a Long Distance call for all it's worth.

Here are some neat little tricks of the trade that will help you get more out of the minutes and the money you spend on a Long Distance call.

The Old Egg-timer-by-the-Phone Trick: Just keep one of those three-minute egg-timers next to the phone when you dial. It's a great help for people who just don't know when to say goodbye.

The Old Talk-a-Little-Longer

Trick: After the first three minutes, a call is charged in one minute increments. So if you talk for three-and-a-half minutes, you might as well talk for four minutes, since it won't cost any more.

The Old Station-to-Person Trick: Not sure the one you want will be there? Think about this: you can often make two station-to-station calls for about the cost of one person-to-person call.

If you want to learn more neat tricks of the trade, just write to Illinois Bell, Box LD-30D, 225 W. Randolph, Chicago, Ill. 60606.

We'll send you a free folder, "How to Get More for Your Money on Long Distance Calls," with tips taken right from the Operator's manual.

We're a lot more than just talk.

THURSDAY, AUGUST 14, 1969 THE ANTIOCH NEWS-4

George R. White, left, and Bertha White Newman will be oldest living descendants as the White family marks the 125th anniversary of their ancestor settling in this area.

White Family Marks 125th Anniversary

The 125th year celebration and open house will be held Aug. 17 on the Homer White farm, on White Road off Deep Lake Road south of Rte. 173, east of Antioch.

A beef barbecue will be held at noon for the direct descendants of George White who homesteaded the original 80 acres of the present farm.

The open house for friends and neighbors will begin at 3 p.m.

The oldest descendants to attend will be Bertha White Newman, of Waukegan, third generation, and George R. White of Hebron, son of David White.

The youngest to be present, sixth generation, is Keith Smith, son of Virginia White and Harold Smith.

Six generations have lived on the farm. When White first settled the property he planted a locust tree on arrival and named the farm Locust Lawn Farm.

The lineal descent runs from George White to David White, George R. White, Homer White, Virginia White Smith and Keith Smith.

In bygone days, when asking, "Is it a boy or a girl?" you were looking at a baby!

THE CHURCH ON THE HILL INVITES YOU TO WORSHIP ON SUNDAYS AT 9:30 A.M.

Where The Boys Are

HONOLULU—Captain William F. Terry, Jr., son of Mr. and Mrs. William F. Terry of Park Ridge, Ill., has received his second award of the U. S. Air Force Commendation Medal at Hickam AFB, Hawaii.

Captain Terry was decorated for meritorious service as a management engineering staff officer at Hickam. He was cited for his outstanding professional skill and devotion to duty.

He has been reassigned to the Pentagon in Washington, D.C. The captain, a 1954 graduate of Antioch Township High School, received his B.S. and M.S. degrees from the University of Illinois and was commissioned there through the Air Force Reserve Officers Training Corps program. He is a member of Theta Chi.

His wife, Mary, is the daughter of Mrs. H. E. Shepard of 654 N. Main St., Antioch.

Army Specialist Four Thomas M. Thompson, 21, son of Mr. and Mrs. Robert B. Thompson, 334 Elmwood Lane, Antioch, was assigned July 24 to the 4th Transportation Command in Vietnam, as a clerk.

Quartermaster Second Class Edward N. Rosquist, USN, son of Mr. and Mrs. Nils Rosquist of Lake Drive, Loon Lake, Antioch, Ill., is serving aboard the U. S. Seventh Fleet Destroyer U.S.S. Rupertus off the coast of South Vietnam.

The ship is homeported at Yokosuka, Japan and currently operates in the Western Pacific. As a member of Destroyer Squadron Three, the Rupertus patrols Korean, Japanese and waters off Taiwan in addition to numerous assignments in the Gulf of Tonkin.

The ship has recently been involved in heavy shelling of known enemy supply areas.

Aviation Electronics Technician Third Class Norman L. Van Rooyen, USN, son of Mrs. Ida Wyso, 163 Fifth Avenue, Rte. 5, Antioch, Ill., is serving aboard the nuclear powered aircraft carrier USS Enterprise now enroute to Norfolk, Va., from Alameda, California.

The ship is scheduled to undergo a year-long overhaul period in Virginia. During that time the ship's nuclear fuel core will be replaced. The new core will give the ship a 10 to 15 year supply of fuel.

During the month-long voyage to Norfolk the ship will experience the full range of Pacific weather conditions, from the equatorial sun to the raging winter seas of the Straits of Magellan.

The Enterprise is also scheduled to make a four day stop in Rio de Janeiro, Brazil before arriving in Norfolk.

Aviation Electronics Technician Airman Wayne R. Slagle, USN, son of Mr. Robert H. Slagle of Route 2, Antioch, and husband of the former Miss Elaine A. Pate of Rte. 2, Kenosha, Wis., is serving with Heavy Photographic Squadron 61 on the Pacific island of Guam.

The squadron flies the RA-3B Skywarrior on reconnaissance and cartographic missions in the Pacific and Southeast Asia area of operations. With its headquarters on Guam, the squadron has three deployed detachments, one in Thailand, Vietnam and Australia.

Capt. William F. Terry, Jr., right, son of Mr. and Mrs. William F. Terry, of Park Ridge, receives the U.S. Air Force Commendation Medal at Hickam AFB, Hawaii, from Brig. Gen. John O. Moench, deputy chief of staff for plans, Pacific Air Force. (U.S. Air Force Photo)

ANTIOCH WOMEN OF THE MOOSE NO. 73
No. 735
By Fran Boxley

THURSDAY, AUGUST 7...

For our officers chapter night program, there were 33 members present. A new member was installed, Dorothy Puig from Twin Lakes, Wisconsin. She was sponsored by Jerri Polson. All the officers were at their stations except for Junior-Graduate Regent, Shirley Gehris who is on vacation.

The evening was very nice and refreshments were served by the officers. Jackie Schmidt received her chapter night pin.

TUESDAY, AUGUST 19...
Chairmen's meeting at Moose Home. All chairmen please attend at 7:30 p. m.

THURSDAY, AUGUST 21

Star Recorders Session has been postponed till a later date. The meeting will be our regular monthly business meeting.

Gay Ellen Bruhn To Receive Degree

Gay Ellen Bruhn, daughter of Mr. and Mrs. Ray Bruhn of 423 Winsor Dr., Antioch, will receive her Bachelor of Science Degree

Gay Ellen Bruhn

in Psychology from Eastern Illinois University on August 14. Gay has been awarded a fellowship from Southern Illinois University where she will study for her Master's Degree in Rehabilitation Counseling for the Mentally Retarded, this fall.

Open House is an invitation to the community to see what PM&L is all about. Come and bring your friends.

Two From Antioch Get Master Degrees

Eunice Mae Rawson and George Paul Twardy, both of Antioch, have received master of science degree in Education from Northern Illinois University.

The degrees were presented on August 7 by Dr. F. R. Geigle, executive vice president of the college.

CHRISTIAN SCIENCE CHURCHES

"Soul is the subject of the Christian Science Lesson-Sermon to be heard Sunday in all Christian Science churches. The Responsive Reading includes these verses from Isaiah: 'Arise, shine; for thy light is come, and the glory of the Lord is risen upon thee. ... Violence shall no more be heard in thy land, wasting nor destruction within thy borders.'"

"A demonstration of the facts of Soul in Jesus' way resolves the dark visions of material sense into harmony and immortality." This correlative passage, also from the Lesson-Sermon, is from the denomination's textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

Services begin at 11 A.M. at First Church of Christ, Scientist, BEACON HILL, Rte. 173 and Harden, Antioch.

THE ANTIOCH NEWS-6

Miss LeRae Kerr, LeRae Kerr, draws the winning entries in the Sweepstakes Division of the 1969 Chain O' Lakes Fishing Derby. Watching, from left, are Ed Krupo, president of the Resort Owners, Earl Stringer of Stringer Dodge, Antioch, sponsor of the Chain O' Lakes, and Bill Brook, president of the State Bank of Antioch where the drawing is held every Friday night at 8 p.m. (Photo by Joseph Rush)

Beauty Queen Draws Sweepstake Winner

Miss LeRae Kerr added her charm to the weekly sweepstakes drawing in the 1969 Chain O' Lakes Area Fishing Derby at the popular Chain O' Lakes Resort Area.

The fishing contest is held weekly until Labor Day. No purchases are necessary. All one has to do is relax and go fishing. Fishermen can register their catch at Claiming Stations throughout the Chain O' Lakes. Four winning entries are chosen in seven categories of fish.

The remaining non-winning entries are then put in a drum and four more winners are picked so that even the small fish have a chance to win.

Prizes consist of various types of fishing gear. At the close of the contest a Grand Prize Outboard Motor is given to catcher of the largest fish in each category. The contest is co-sponsored by the Pepsi Cola General Bot-

lers of Chicago, the State Bank of Antioch and the Chain O' Lakes Resort Owners Association. Third week winners—August 1 to August 7th:

NORTHERN PIKE:
1st, Howard R. Falkenberg, Lake Villa, Johnson Rod & Reel
2nd, C. Patz, Wheeling, Plane Tackle Box
3rd, James Gravley, Ingleside, Mepps Pike Lure Kit
4th, John E. Lentini, Lombard, Rapala Knife

WALLEYE:
1st, Joe D. Jacobs, DSCS, Forestville, Great Lakes, Johnson Rod & Reel
2nd, Ted Finger, Crystal Lake, Pepsi Cooler
3rd, James R. Slack, McHenry, Mepps Pike Lure Kit
4th, Frank Schultz, Calif. Cubel, Antioch, Johnson Lure Kit

BASS:
1st, Richard Jensen, Evanston, Turner Campstove

2nd, J. Prange, Palatine, Plane Tackle Box
3rd, Jack Fiere, Round Lake Beach, Mepps Bassor Lure Kit
4th, Joe Klementic, Chicago, Rapala Knife

STRIPED BASS:
1st, Paul Yokes, Antioch, Pepsi Cooler

2nd, Mike Patton, Chicago, Turner Lantern
3rd, Mack Huecksteadt, Chicago, Mepps Lunker Lure Kit
4th, Edward Moses, Chicago, Johnson Lure Kit

BLUEGILL:
1st, John Schwinn, Chicago, Pepsi Cooler
2nd, Sherman Dennison, Chicago, Turner Lantern
3rd, Rich Banicki, Franklin Park, Pepsi Tote Bag
4th, Fred Wilson, Fox Lake Hills, Lake Villa, Johnson Lure Kit

CRAPPIE:
1st, Howard Huecksteadt, Chicago, Pepsi Cooler
2nd, George Rose Brdck, Chicago, Pepsi Tote Bag
3rd, Marc Bowen, Antioch, Johnson Lure Kit
4th, Larry Hilger, Antioch, Rapala Knife

CHANNEL CAT:
1st, Joanne Chorpeneing, Chicago, Pepsi Cooler
2nd, Ricky Svoboda, Antioch, Plano Tackle Box
3rd, Fritz, Virgil K. Grisham, Joliet, Mepps Lunker Lure Kit
4th, Chris Mathews, Chicago, Johnson Lure Kit

SWEETSTAKES WINNERS:
1st, Doug Musil, Berwyn, Pepsi Cooler
2nd, Peggy Boisvert, Park Ridge, Mepps Lunker Lure Kit
3rd, John Maggiore, Chicago, Mepps Pike Lure Kit
4th, Elsie Dabe, Chicago, Johnson Lure Kit

Bergsma Wilmot Winner

Ron Bergsma, a Hemi-Plymouth pusher, roared into the lead after the halfway point in the feature race and won the Kenosha County Fair Championship. Eddie Loomis had taken the lead and built up a big lead by Bergsma caught and passed him and sped away to the win over Jr. Dadd, Bill Bohn, Loomis and Claude Potter.

Defending Wilmot Champion Roger Otto was in a borrowed car because he had blown the engine in the Poncho modified at Rockford on Friday night. He finished far down in the feature standings and lost much of his point lead to repeat as Wilmot Champion.

John Arnold won a heat and returned to take the semi-feature over Ken Monroe and Pop Kline. While they did not win, the very presence of both Monroe and Kline, was a feat in itself. On Thursday night at Wilmot, both had severely damaged their cars in separate accidents. Heats were won by Arnold, Ray Faulkner, Loomis and Bill Bohn. Al Schill had fast time of 17.49 seconds.

The sportsmen's feature was won by Bernie Binon and heats in this division were won by Jim Halverson, Cal Clark and Chuck Weddle.

An action necessary following a State Inspection of a portion of the grandstands brought about the removal of a section of bleachers. This, coupled with a large County Fair crowd, brought about a standing room only condition for approximately 200 off the 3250 fans who contributed toward the \$2745 purse.

Racing at Wilmot will end on September 6 with the Season's Championship set for Saturday night, August 30. In case of rain the September 6 date will be used and if no rain on August 30, the September 6 date will be a super-windup with many special attractions.

Schill Still Lake Geneva Point Leader

Al Schill, Frankville, Wis., modified stock car point leader at the Lake Geneva Raceway extended his current point lead by winning the feature race at Lake Geneva Sunday night after a close duel throughout the distance with Denny McKay of Elgin.

Less than a car length separated these two on the turns and straightaways for the last five laps and many times it looked like McKay would take the lead as Schill's car three wheels on the edge of control.

Tom Anderson of Antioch set last time of 17.03, just off the track record, but could not work his car up through the tightly bunched field. Heats were won by Roger Otto, Ken Monroe and Denny McKay.

Pop Kline of Pell Lake won the semi-feature which was run as a pursuit race.

Gill Schills of Delavan was the big gun in the sportsman stocks as he set fast time and won the feature for the bonus event cars.

The Lake Geneva Raceway continues its program of late model stock car racing each Saturday night and the super modifieds will continue to race each Sunday night. The spectator stocks will provide bonus events each night.

Little League Action

Little League action resumed on Monday, Aug. 4 with the Tigers beating out the Pirates by a 10 to 5 score.

Jim Shostak of the Pirates hit a two-run homer in a losing cause as Tiger pitcher Jeff Schmidt proved too much and bested Shostak who took the loss.

On Tuesday, Aug. 5 the Giants won out over the Cubs by a 3 to 1 score. Winning pitcher was Gary Klein while Cermak suffered the loss. Both pitchers needed aid, Rich Witt relieving Cermak and Bogarts relieving Klein.

The Little Leaguers took on the Village Fathers on Wednesday, Aug. 6 and the elderly group won out 13 to 10.

The Minor League All-Star game was played on Aug. 10 and the All Stars beat out the Cardinals by a score of 12 to 11.

Kenosha Team In 1st Place

The final night of league play of the Thursday night Two-Lite Golf League at Spring Valley C.C. found the Kenosha Savings & Loan team in first place with 47 points. Golfers on the winning team are John Cencula, Ken Moore and Walt and Wayne Helwig. Each player will receive an individual trophy, together with a sponsor trophy for Don Carr, of Kenosha Savings & Loan.

Second and third place sponsor trophies to the Antioch Landscaping and Marchuck Resort teams with 45½ and 45 points—Peter Matteoni and Albina Marchuck, sponsors.

Fourth to twelfth in the standings were: Tom's Luggage, Maggie & Bob's Tavern, Camp Lake TV, Hospitality House, Cermak Realty, Ray's Shell Service, First National Bank of Antioch, Antioch Lumber and the State Bank of Antioch team.

Don (Shad) Richards and Ralph Faber of Marchuck's Resort lead the league with most match play wins, (nine wins, one tie, 2 losses each).

Dick Stroner of Ray's Shell Service team was the most improved golfer, cutting five strokes off his starting handicap.

The special "duffer trophy" will be announced at the annual banquet on October 18th.

The player sweepster on Thursday, Aug. 14th and 21st: winds up this year's action on the good ole' links.

Bowlers Attention

The Ten Pin Topplers Women's League will hold its first meeting Tuesday, August 19, at 7 p.m. at the Antioch Bowling Lanes.

Anyone wishing to bowl may attend the meeting, or contact Kay Schaefer, 355-9294.

TEAM CAPTAINS, PLEASE ATTEND THIS MEETING.

Golf League Finishes Season

The Antioch Businessmen's Tuesday Night Golf League finished up play on Aug. 5 with Gibbs & Jensen taking first place. Four teams were in the final session.

The final standings are: Gibbs & Jensen, State Bank of Antioch—A Teresi Chevrolet-Olds, Antioch News, Shoe Box, Ray's Shell, Wilton Electric, State Bank of Antioch—1 Carey Electric, King's Drugs, First National Bank of Antioch, Lyons-Ryan Ford

Junior Bowlers Awards

The Junior Summer Bowling League finished up its 12 weeks at the Antioch Bowling Lanes on July 31. Some 20 teams participated in the league.

The champs of the North Division included Dan Storbentz, Debbie Santi, Jeff Wegner, Pam Allen; West Division—Bill Wozniak, Craig Pierce, Church Hamann, Wendell Hagen, Dave Longly; winners of the special roll off world series were Don Scott, Kerry Ishmael, Steve Maciek, Evan Maciek, Randy Allen; National League champs—Paul Litchford, Woody Litchford, Al Boston, Bruce Volting, and Ed Galanopoulos.

Trophies and awards will be given out on Aug. 14 at 8 p.m. High games and high series, respectively, for each division included:

East Division—Al Boston, 243, Paul Litchford, 615; Kathy Weeks, 125; Debbie Hagen, 412; West Division—Bill Wozniak, 235, Tom King, 660; Linda Walpole, 186, Wendy Jensen, 575; South Division: Don Scott, 205, Phil Maplethorpe, 618; Linda Herman, 182, Diane Crandall, 502; North Division—Mike Schneider, 236, Dave Turner, 625; Carol Boreen, 187; Pam Allen, 554.

Other trophies will be awarded to Sue Davidson, Kerry Shute, Tom Runyard, Toni on Team 1, Mike Stickler, Gail Kummer, Bernice LaFlamme, Chris Petcaszio, Ronna Andrews, Dawn Ellis, Gary Inman, Larry Rathmann, Dan Lasco, Rick Dilabio, Carl Dunford, Wendy Jensen, Linda Walpole, Debbie Thibedeau, Sherry Dalgaard and Karen Bucar.

Roper Feature Victor

Bob Roper breezed to another Waukegan Speedway 30 lap feature win Sunday night taking the lead from Rich Sundling of Chicago in the 9th lap. Ray Young of Dolton finished second and Sundling took third.

Lou Clavey of Deerfield took the lead at the green flag after one restart. On the second lap Rich Davis of Waukegan shot in front, but that was short lived as Sundling was in the lead on the next lap.

By the fifth lap Roper was second followed by Al Hagerty of Libertyville, Frank Cabrera of Chicago, Young, Jim Cossman of Waukegan, Davis and Dennis Burgan of Old Mill Creek.

Roper slipped inside Sundling for the lead in the 9th lap and one circuit later Young was second. Young, who ran strong in the preliminary events, could not gain on Roper in the closing laps as his engine sputtered.

Sundling drove a steady race for his money and Cabrera in his best finish of the season was fourth. The closest race in the second half of the feature was among Cossman, Burgan, Davis and Hagerty. Burgan took fifth on the 24th lap and was followed at the finish line by Davis, Hagerty and Cossman.

Burgan set fast time for the evening with a 14.92 seconds lap. Cossman won the trophy dash in a close finish over Roper. Heat wins went to Jim Dietmeyer of Wadsworth, Davis, Cabrera and Wayne Helfoyt of Arlington Hts. Paul Graddock of Round Lake won the semi-feature race taking the lead from Dietmeyer with just one lap to go.

The hobby stock feature had another unpredictable finish as Paul Lewis of North Chicago led until the next-to-the-last lap when Tom Reuss of Round Lake and Cora Morton of Zion closed in. Just as the white flag came out Morton took the lead as the crowd came to their feet.

In the final lap Lewis lost control trying to regain the lead and nearly climbed over the second turn concrete wall. Almost simultaneously Morton's car stalled and she stopped a half lap short of victory. Reuss, the point leader, dodged the two disabled cars and rolled in the winner.

Hobby stock heat races were won by Al Sell of DesPlaines and Cliff Burdette of Sturtevant, Wis.

Bowling League Meetings Are Set

Bowling League Meetings will be held on the following dates for below mentioned leagues:

Aug. 13 Wednesday Businessmen's League, 7:00 p.m.
Aug. 14 Ladies Thursday afternoon League, 12:30 p.m.
Aug. 14, Thursday Businessmen's League, 8:00 p.m.
Aug. 18, Monday Night Owl League, 8:00 p.m.
Aug. 18, Monday Men's Tavern League, 8:00 p.m.
Aug. 19, Ten Pin Topplers Ladies League, 7:00 p.m.
Aug. 19, Gutter Ball Girls League, 8:30 p.m.
Aug. 20, Wednesday Men's Scratch League, 8:00 p.m.
Aug. 20, Wednesday Men's Good Fellowship League, 8:30 p.m.
Aug. 21, Wednesday Mixed League, 8:00 p.m.
Aug. 21, Thursday Night Bi-State League, 8:30 p.m.
Aug. 22, Ladies Pinspotters League, 8:00 p.m.
Aug. 22, Men's Major League, 8:30 p.m.
Aug. 25, Ladies Classic League, 7:00 p.m.

Nation's Top Drivers To Seek \$20,000

Knoxville, Iowa—That whopping \$20,000 purse at this year's Super Modified National Championships at Knoxville, Iowa, Aug. 14-15-16, is bringing in the largest field of the nation's top drivers in the history of the three day event.

Said race director Marion Robinson, "with men like Harold McGilton of Allentown, Ohio, Bobby Jones of S. Danville, Ill., and Jimmy Allard of Dallas, Texas, we're talking about point leaders and track record holders on some of the nation's finest and most respected tracks. These buys," says Robinson, "are no watermelon pushers. And, that's only three names."

"In the nine years of the Nationals here at Knoxville, never have I seen more individual point leaders assembled on the Knoxville half-mile oval at one time. Our regular boys, who have dominated most of the Nationals, are in for their greatest challenge."

Sixty-five entries are in with more than eight states represented. Should a non-regular take the \$3,000 (plus) championship this year, it will be the first time since Jerry Reichert of Minnesota did the trick in 1962.

Marion County Fairground officials said this week that it appears to be an all-around record year for the Super Modified National Championships.

Burgan Has Sweep At Geneva

Dennis Burgan, Old Mill Creek, returned to the Lake Geneva Raceway Saturday night and proved himself every inch a sportsman, and excellent driver of the late model stocks as he won every event he entered. This included not only the 30 lap feature race, but the fast heat and Trophy Dash. He also set fast time for the night.

His performance was particularly significant since his problems of one week ago when he could not race in the mid-season championship race for failure to join the owners and drivers association. This association is not a part of the Lake Geneva Raceways promotion but does represent a group supplying some of the cars.

Bruce Johnson of Woodstock brought out a new Dodge Charger but could only manage a second place in the events to Burgan. But Johnson expects that changes made after this initial race will make it possible for him to out-race Burgan when they meet next Saturday night.

Gil Rein, also of Woodstock, was third in the feature. He had worked his way forward and was closing on the leaders at the end. Gil Schills of Delavan was the winner of the feature race and the large number on hand made this a feat of great significance because he started far back in the field of fender benders.

Masters Degree To Doris Diane Busch

Doris Diane Busch, of 701 Lake St., Antioch, was one of 77 men and women to receive a masters degree from Rosary College, River Forest, Ill., at exercises held Aug. 8.

Bonnie Bozien Enters Dickinson College

A record 500 freshmen will enter Dickinson College with the start of its 197th academic year in September, at Carlisle, Pa. Gerald S. Hawkins, the dean of admissions, announced that the new class will include Bonnie R. Bozien, 525 Winsor Dr., Antioch.

Modified Stocks At Waukegan

The roar of the powerful modified stock cars will once again be heard at the Waukegan Speedway and these cars and drivers are scheduled to race on Friday night, August 29. This will be the first race for modified stock cars on the asphalt surface in Waukegan.

The races will be topped by a 30 lap feature race in addition to a full slate of preliminary qualifications and races. The hobby stock cars will also compete that night. In the event of rain, Monday night Labor Day is being held in reserve as a raindate.

Actually, the track will be open for modified practice on the Sunday nights preceding the big event. Already Bill Bohn of Kenosha and John Reimer of Caldonia have announced their intention to practice next Sunday night, August 17 in addition to the regular late model racing program.

A large turn-out of area modified cars representing at least 7 tracks are expected to enter the Friday night race. Leading the entry list will be Reimer, last year's modified champion at Waukegan when the track was still clay.

That same weekend the track will host a 50 lap late model race on Saturday night and a 100 lap race on Sunday night.

Time trials for all events start at 7 p.m. with the first race at 9 p.m. The track is located ½ mile east of Rt. 41 on West Washington Street near Waukegan.

Sept. 30 Last Day To Retain Same Plates

Illinois residents who wish to retain their present license plate numbers or request special numbers for 1970 must make application before the Sept. 30 deadline, according to the Chicago Motor Club-AAA license bureau.

Motorists are cautioned, however, that application either for special numbered plates or for re-assignment of a present number must be made on 1970 forms.

New renewal forms, pre-printed and partially completed, have been mailed to all Illinois registrants by the secretary of state. The required registration fee, based on horsepower indicated, is pre-printed on the face of the renewal notice forms. The pre-printed forms should be used wherever possible. The motor club emphasizes, however, the car described on the form will be the original vehicle owned in 1969. If 1969 plates were transferred to another car, the pre-printed form is not to be used.

In 1970 there will be only two license fees for passenger cars—\$18 for vehicles having less than 35 horsepower and \$30 for cars having more than 35 horsepower. Illinois 1970 license plates will have a color combination of red letters and numerals on a yellow background. The plates will be reletterized.

Plates issued first will carry only numbers, from 1 through 999,999. All other plates will be made up of two letters followed by one to four figures beginning with AA1. Some letter and letter combinations are not available.

CF Drive Needs Many Volunteer

How many citizens of the greater Chicago area are willing to devote some of their time this year to help give the breath of life to millions of children suffering from serious, chronic, lung disease?

This is the question asked today by Sheriff Joseph I. Woods, Chairman of the Breath of Life Campaign of the Greater Chicago Chapter of the National Cystic Fibrosis Research Foundation. Sheriff Woods is seeking volunteers to assist during the Chapter's annual fund-raising drive to be held during Cystic Fibrosis Week, Sunday, September 14, through Sunday, September 21.

"More people than ever are needed this year to insure the success of our broadened program," he said. "While we are dedicated to finding a control for the genetic disease of Cystic Fibrosis, our research and the therapy available at the 110 C/F Centers throughout the country are benefiting all children with lung disease, of whom there are millions. Six out of seven of those brought to a Center are found to suffer from other diseases whose symptoms closely resemble those of Cystic Fibrosis. Thus we are helping children with asthma with

lung damage, chronic bronchitis, juvenile emphysema, and bronchiectasis as well."

A basic research program, in which eminent investigators in the various basic sciences are pursuing studies to find the underlying cause of the genetic defect that produces Cystic Fibrosis, and a diagnostic and treatment program at the Centers are supported by the annual campaign. Sheriff Woods hopes that when the Cystic Fibrosis representative calls you to volunteer a little of your time during C/F Week, Sunday, Sept. 14th through Sunday, Sept. 21st, you will say "yes", thus helping so many children who suffer from Cystic Fibrosis and other acute and chronic lung diseases to have a better chance of living a normal life. Help give the breath of life!

At present, the Greater Chicago Chapter has approximately 20,000 volunteers, needing 10,000 more to reach its goal of \$30,000. This year's goal for the door to door solicitation is \$150,000, with the over-all goal for fiscal year 1969 being \$250,000.

4-Hers Vie For \$600 Scholarship

SPECIAL—Six teenagers who have improved their home surroundings through their own initiative and efforts will wind up the year richer by a \$600 scholarship. They will receive their reward early in December during the National 4-H Congress in Chicago.

These young people are 4-H members who will be named 1969 National winners in the 4-H Home Improvement program supervised by the Cooperative Extension Service, and supported by the S&H Foundation, Inc. They are fixing up their own rooms, or decorating and remodeling to add utility and beauty to the family dwelling.

Last year nearly 188,000 rural and urban 4-Hers participated from coast to coast. The youngsters generally are between 9 and 19 years old. They belong to a club or group having a volunteer adult leader competent to advise and teach them the ways and how of home improvement. The Extension Service does the overall program planning and project evaluation.

"How-to-do-it skills taught 4-Hers should be practical and yet help add beauty to home surroundings which the entire family can appreciate and enjoy," said a 4-H leader. Creativity is encouraged.

Girls put their sewing skills to good use in making curtains, draperies, spreads and wall hangings. Among boys carrying a home improvement project can be found amateur carpenters, painters, and electricians.

Getting the most for the least money, or with no cash outlay at all, are shortcuts to home improvements, the 4-H youths soon learn. Restoring old or discarded items is a favorite hobby that adds value and variety to room furnishings.

Besides county honor medals, The S&H Foundation, Inc., sponsors an expense-paid trip to the National 4-H Congress for the state champions, six national winners will be selected to receive \$600 S&H scholarships. The scholarships may be used at a junior college, vocational school or 4-year college or university.

Stamps Aid 181,000

Over 181,000 persons in all 102 Illinois counties received food assistance through the U.S. Department of Agriculture's Food Stamp Program during June, according to Dennis M. Doyle, Midwest district director of Consumer Food Programs.

The total included 162,108 on public aid and 19,099 other low-income persons.

During June Illinois participants received about \$3.6 million worth of food coupons of which \$864,000 were bonus coupons. This was a bonus average of \$5.32 per person.

In 564 Midwest projects, around 807,000 persons were in the program during June. Total value of coupons was nearly \$15.6 million of which 32 per cent was in bonus coupons. The district bonus average was \$6.02 per person.

By participating in the Food Stamp Program, low-income families can buy more food by exchanging the amount of money they normally spend on food for coupons worth more than they paid.

Recipients spend coupons just like cash, at authorized retail food stores, for any domestic food. They cannot purchase items like household cleansers, tobacco or liquor with the coupons.

Doyle urges families not getting enough food to look into the program by contacting the local welfare office.

Vets May Miss Checks If Not Certified

Several thousand veterans in college this fall will not get the G.I. education check they expect in November from the Veterans Administration, Administrator Donald E. Johnson said today.

It would make him very happy if the college-bound G.I. veteran proved him wrong this fall, he declared.

The fact is, Johnson said, many who were enrolled in college last semester have failed to send in their end-of-term Certification of Attendance card, and cannot be paid in the upcoming school term until they do.

Administrator Johnson said the VA is also holding nearly a half million dollars worth of June G.I. Bill checks, which cannot be mailed either until the attendance card reaches VA computers.

G.I. Bill college students who did mail in their attendance cards in June will get paid the new term allowances on time—but those who skipped mailing to VA the required card certifying that they had completed the spring term will not get paid until they straighten out their accounts with VA.

This can be done, Administrator Johnson said, by mailing in that 3 x 7 white card with a blue stripe around the top to the VA immediately. If the veteran has lost this Certification of Attendance card he should get in touch with the VA office which has his records, and ask for another.

Administrator Johnson said thousands of delays and thousands of lost man-hours are encountered on college campuses and in VA offices each year—all avoidable if campus G.I.'s and college registrars perform on time the few necessary chores to certify veterans' attendance.

Public Aid Rolls Reach New High

Illinois public aid rolls reached 538,717 in May, an increase of 1,089 over the previous month and 50,643 higher than a year ago.

Public Aid Director Harold O. Swank said that increases in the aid to dependent children and assistance to the aged, blind or disabled programs more than offset a decrease in general assistance.

Total May expenditures were \$42,499,432, an increase of \$1,061,173 from April and an increase of \$6,721,281 over May 1968. The latest expenditures include \$928,078 for foster care, assistance to the medically indigent in Chicago and Cicero, and burials.

The May caseload included 409,110 persons on assistance to the aged, blind or disabled and aid to dependent children receiving money grants and eligible for medical care; 62,367 eligible for medical assistance only; 67,240 on general assistance. Respective figures for April were \$406,907; 61,669, and 69,652; for May, 1968, 367,406; 53,793, and 66,815.

The 62,367 persons eligible for medical assistance only, 698 over April, are included in the trends of the individual programs enclosed. The April cost was \$5,936,279.

The aid to dependent children program served 359,955 persons in May, an increase of 2,008 over April and 44,505 higher than in May 1968. Expenditures were \$22,022,150 in May, an average of \$61.12 per person; \$21,091,199 in April, and \$17,081,521 in May 1968.

Old age assistance helped 63,985 persons, 18 more than in April and 313 more than a year ago. Expenditures in May were \$8,812,849, an average of \$106.49; \$8,445,963 in April, and \$8,156,441 in May 1968.

Blind assistance rolls numbered 2,010 persons in May, up six from the previous month and 75 less than a year ago. Expenditures were \$265,363 in May, an average of \$132.02 per person; \$258,468 in April, and \$252,565 a year ago.

Recipients in the disability assistance program in May increased by 629 persons to 45,527. The May 1968 total was 40,652. Expenditures in May were \$7,448,421, an average of \$163.60 per person; \$7,680,585 in April, and \$5,905,666 in May 1968.

General assistance—all units—was received by 67,240 persons; down 1,812 from April and up 425 from May 1968. Expenditures in May were \$5,042,571, an average of \$74.99 per person; \$4,784,033 the previous month, and \$4,169,905 a year ago.

Shapiro Will Take Part In Ceremonies

Former Governor Samuel H. Shapiro will return to Springfield today (Thursday) Aug. 14, to join in a tribute to Democratic State Officers and legislators on Democratic Day at the Illinois State Fair.

Democratic State Chairman James A. Ronan said that "We are delighted Governor Shapiro is going to be with us and we all look forward to the opportunity to give him a rousing welcome on Democratic Day."

The 1969 Democratic Day program will feature speeches by Lt. Governor Paul Simon, Secretary of State Paul Powell, State Auditor Michael J. Howlett and State Treasurer Adlai E. Stevenson III. The Democratic Committee has purchased one-half hour radio time around the State to bring the messages of these outstanding State Officers to the people of the State of Illinois. This concluding portion of the program will extend from 1 p.m. to 1:30 p.m.

Legislative leaders who will speak are Senate Minority Leader Thomas A. McGloin and House Minority Leader John P. Touhy, Senate Whip Alan J. Dixon and House Whip Clyde L. Choate.

Antique Auto To Be Displayed

A bright red 1903 Ford grand champion of the Antique Auto and Sports Car Meet at the 1968 Illinois State Fair, will be the featured car in the antique auto exhibit at the Fair this year, Secretary of State Paul Powell, superintendent of the Meet, announced today.

The car, owned by Marvin R. Young of Matteson, will be one of 14 cars representing antiques, classics, special merits and sports in the exhibit throughout the Fair. The exhibit is located on the Avenue of Flags, near the entrance to the grandstand.

On Saturday, August 16, more than 150 cars will compete for trophies in 28 classes and the 1969 championship. The Meet will be held on the parking lot just inside Fairgrounds Gate 11.

Pollution Fighters Get Tools

New legislation increasing the state's power to act against air and water polluters gives Illinois one of the strongest pollution control programs in the country, according to the Illinois State Bar Association.

One of the new laws enacted by the 70th General Assembly authorizes the attorney general to bring mandamus or injunction proceedings to stop pollution without waiting for the outcome of any administrative proceedings already instituted against the polluters.

This means, the ISBA said, that the state may legally close down air and water pollution sources even though administrative action against the same defendants is pending before the Air Pollution Control Board, the Sanitary Water Board or other administrative agency.

Penalties for water pollution are stiffer. The maximum overall fine is increased from \$500 to \$5,000; the daily fine goes up to \$200 from \$100 and the possible jail sentence is increased to six months, rather than 30 days. Similar penalties are provided for air pollution.

Still another law gives the attorney general power to enforce pollution standards in Cook County where previously the Chicago Sanitary District and the Cook County and Chicago air pollution boards had sole jurisdiction.

The 1969 Legislature also enacted a law designed to curb pollution by pesticides. Sponsors of this new law were concerned most specifically with the use of "hard" (chlorinated hydrocarbons) pesticides in the Lake Michigan watershed. Such pesticides which find their way to the lake after being used to combat Dutch elm disease and mosquitoes, purportedly have killed thousands of game fish. The new law empowers the Department of Agriculture's director to propose and enforce regulations concerning the labelling, sales, and use of such pesticides.

"I don't want to scare you," the 7-year-old informed his teacher, "but my daddy says if I don't get better grades somebody's going to get spanked."

Safety Commission Warns of Pesticides

The Lake County Safety Commission reminds you to keep children and pets away from the areas where you mix and apply the pesticides. Following application, keep people away from the area and see that they avoid contact with sprayed surfaces.

Before spraying garden crops, double check the label for restrictions on spraying the plants that will be eaten in future weeks. Depending on the pesticides used and when applied, most leafy vegetables and fruits such as tomatoes must be sprayed during a certain period of time before harvest. And of course all vegetables should be washed before eating.

Keep poison products in their original containers—never in pop bottles, fruit jars or unmarked containers where they might be mistaken for food or drink.

Keep pesticides together in a special cabinet under lock and key.

Dispose of empty containers immediately. Wash them out if possible. If you burn them, don't subject yourself or a neighbor to the smoke or fumes. Gases released by the heat may be poisonous. Never throw boxes, bottles or cans containing leftover amounts in trash cans accessible to children.

Semler Appointed To Abbott Position

Bernard H. Semler will be named Vice-President, Finance, of Abbott Laboratories at the company's board meeting Sept. 26. It was announced by George R. Cain, Chairman of the Board and Chief Executive Officer.

Semler, 52, will join Abbott effective Sept. 1. Cain said, Semler was Vice-President and Treasurer of Norton Simon, Inc., Los Angeles, since July, 1968, following the consolidation of Canada Dry Corporation, Hunt Foods and Industries, Inc., and McCall Corporation into Norton Simon, Inc. He had previously served as Vice-President, Finance, at Hunt Foods and Industries, Inc., and has been associated with these and predecessor companies since August, 1960.

Take Five Quintet To Perform

The very popular "Take Five" Folk Music and Drama Troupe of students from North Central College, Naperville, Ill., will appear for the first time in Lake and McHenry Counties on the Chain O' Lakes area next Sunday, August 17.

They will give a Contemporary Folk Worship Service at the Ingleside United Methodist Church. Everyone is invited.

Mary Sutton of Grant High heard the "Take Five" group at Camp Reynoldswood, Dixon, and says they're "really groovy." Anyone needing a ride to the Folk Service is urged to call Mary at JU 7-2127.

The three neat boys and two groovy girls are touring the midwest for the summer with three guitars and a large repertoire of folk songs such as "The Times They Are A Changing" and "The Sounds of Silence." They also do humorous, meaningful skits about such topics as "Adam and Eve."

The Contemporary Folk Worship Service will begin at 10:15 a.m. at Ingleside Church. The "Take Five" group also will entertain in the afternoon during the annual picnic on the church grounds. Everyone is welcome to remain for the picnic.

There will be ball games and races, fun for everyone, and plenty to eat. Picnickers should bring a dish of food and their own eating utensils.

The church is located at the end of Maple Avenue, 1 block south of Grand Avenue and two blocks west of Wilson Road.

Antioch Man Nabbed On Burglary Charge

William H. Stevens, 21, of Box 26, Rte. 83, Antioch, was arrested while hiding in water near Nan's Squaw Creek Landing Restaurant, Ingleside, early Monday after allegedly fleeing from the scene of a burglary.

Deputies said Stevens admitted burglarizing the restaurant. Stevens, who said he was on probation on a burglary charge, told deputies he had tried burglary twice and was caught both times.

Zoning Petition Up On August 19

The Lake County Zoning Board of Appeals will hold a hearing at

\$46,016 Bid On Bridge Is Approved

A low bid of \$46,016 for a bridge over a channel on Lakeview Avenue in the Town of Fremont has been approved by the highway committee of the Lake County Board of Supervisors. The bid was submitted by E. M. Melahan Construction Company.

Authorization to award the contract by committee was given by the full Board, however, a report on the action will be made at the regular County Board meeting August 12.

Highway committee members and representatives from Waukegan and North Chicago met earlier this month in Elgin with the district engineer for the Illinois Division of Highways. They were told that needs for construction of supplemental freeways, other State highway work, and updating of existing highways under the State system call for an expenditure of approximately \$288 million.

The engineer pointed out that it appears about only half that amount in funds may be available in the foreseeable future, and that priority assignments would depend a great deal on local cooperation in meeting the financial deficit.

Much of the meeting was taken up with discussion of the proposed Waukegan Industrial Expressway. It was decided that the Lochner study of 1958 would have to be updated and that interested communities and the County would probably be required to underwrite the cost of such a study. The original study was done by Harry Lochner & Associates.

The proposed expressway would run from Great Lakes Naval Training Center north to the Wisconsin State line.

1:30 p.m. Aug. 19 in the old village hall, Antioch, on a petition by Arthur Meyer who is asking reclassification from UR-3 to CB for several lots one block north of Grimm Road on the west side of Rte. 83.

Meyer, who operates the Gilded Cage would like to relocate his business.

Illinois — Where Action Is

Known as the "Prairie State," "Crossroads of America," the "Tall State," "Great Continental Heartland," "Mid-American Empire," or "Land of Lincoln," it is that section of our nation called ILLINOIS. Spreading out over 56,400 square miles—nearly 400 miles from top to bottom and 200 miles across at its widest point—criss-crossed by a complex transportation network and peopled by 11 million inhabitants, Illinois is a land of talent, skill, resources, beauty and opportunity.

Nor have these magnificent advantages been ignored by her people. So diversified and well-balanced is the Illinois economy that no other state ranks so high in so many years of activity. To mention a few, Illinois is third in agriculture, fourth in manufacturing, third in retail sales, third in wholesale sales, third in banking and finance, eighth in mineral production, first in transportation and first in exports of agricultural and manufactured products.

Like most economic "miracles," these successes did not happen overnight. Instead, Illinois has been growing—steadily, inevitably—over a long period of time. Since our economy does not depend on any single industry, Illinois has no economic Achilles heel. Instead, the strength of our economy is directly related to its diversity. Advantageous geographic location and natural resources have always had great significance.

Equally important is the unparalleled transportation network and accessibility of regional, national and world markets. As these basic assets attract more people, more business, more jobs, the spiral continues. It makes good sense to be close to so many favorable assets, especially when they are marshalled by the pragmatic cooperation and enterprising leadership exhibited by Illinois businessmen and government leaders.

This spirit of cooperation and leadership are more than business virtues. They are an Illinois tradition dating back to the days

when our prairie was first being settled. When a new family pulled into a community, neighbors came from miles around to give them a hand in settling and clearing their site, digging the well, getting crops started and "raising the roof" on their new home. Even now in our space age society Illinois tradition demands that we still make newcomers welcome and that neighbors still help each other prosper.

This tradition of helping and of solving problems at the community level still prevails. In fact, the stability of our state's economic growth is based on a bedrock foundation of sound local level action. It is at the community level that problems affecting business are handled and a healthy local business climate maintained. To do this job, there are more than 450 local chambers of commerce, business groups and industrial development groups representing Illinois' commercial and industrial interests.

On the state-wide level, the Illinois State Chamber's Economic Development program assists local groups develop sound programs to attract new payrolls... assists manufacturers in finding suitable sites for new operations... works with utilities, railroads, banks and real estate firms in their promotion of new industry.

Through such associations as the Illinois State Chamber of Commerce, Illinois businessmen make public participation in state and local governments a reality. Thus, Illinois government reflects the interest of Illinois business and people. Moreover, the diversity of Illinois' enormous wealth, as represented by its great industry, fertile lands, and the extensive mineral resources, broadens the tax base to such an extent that no single activity is excessively burdened. These two factors combine to create a business climate which has long given Illinois a deserved reputation as a healthy place for business to grow and prosper. Name a field of economic endeavor and Illinois

is there... at or near the top. And all this is only the beginning for Illinois. "Already there exists in the area... all of the requisites for an international business economy which could grow at a compound average annual rate substantially greater than that of any comparable region in the country," says William Blackie, chairman of the board of Caterpillar Tractor Co., Peoria.

"We have the manufacturing and agricultural skills to command greater shares of world markets and these provide the basic substructure upon which we can build."

And build we will... because of the one ingredient Illinois cannot measure in terms of statistics... her people. For it is the people of Illinois who offer the greatest lure to business and industry—a people with the confidence and the creative response to accept the challenge of one of our native sons. It was the late Adlai Stevenson II of Illinois who said:

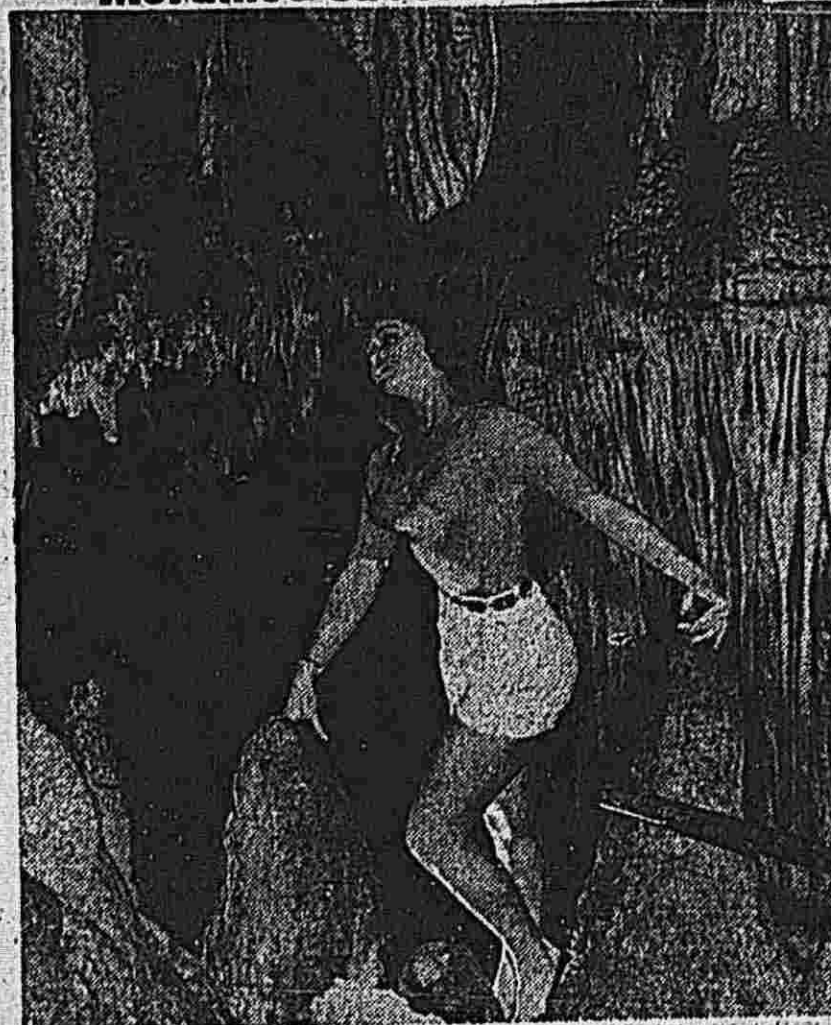

"Here on the prairies of the Middle West, we can see a long way in all directions. We can look to East, to West, to North and to South. Our commerce, our ideas come and go in all directions. Here there are no barriers, no defenses to ideas and aspirations. We want no shackles on the mind or the spirit, no rigid pattern of thought, no iron conformity. We want only the faith and conviction that triumph in fair and free contest."

Already Enough

When Ben Franklin proposed to his fiancée her mother was extremely reluctant to approve of her daughter marrying a printer. Her point: There were already two print shops in the United States and she doubted this country could support a third!

Well, Ben's Sat.EvePost lasted quite a while, but it finally had to give up due to increasing costs.

World's Most Modern Cave Is Meramec Caverns On U.S. 66

People are always looking for something new and they're finding it in 100,000,000-year-old Meramec Caverns on U.S. 66, Stanton, Mo. It is the most modern cave in the world. Lester B. Dill, cave director, tags it, "The Greatest Show Under Earth." He is always coming up with improvements for the only known five-story cave.

Inflation hasn't hit this underworld as the tourists can see the five stories for the same admission as one. Here is shapely Sue Pinter looking over the multi-million-year-old formations.

One of the main reasons for it being so popular — 15,000,000 people from all over the world toured it — is that Jesse James and his gang used to hide-out there. The most photographed spot in the cave is Look Rock, where Jesse and his gang used to split their loot from their robberies. Jesse, as a member of Quantrill's Guerrillas, gained knowledge of Meramec Caverns in 1864, when the guerrillas captured the gun powder mill. The cave afforded the James gang a complete hideout for men and horses.

Trained Rangers conduct tours all day at the unique underground place. In order to prevent any congestion, paths have been constructed separating the incoming tourists from the outgoing tourists. Metal rails make it simple for tourists to go through the place. The cave has the most modern lighting system anywhere. Mother Nature keeps Meramec Caverns, which is 55 miles southwest of St. Louis, at a constant 60 degrees.

There's a streamlined restaurant and motel right on the premises, and the souvenir shop has over 10,000 items.

At Submarine Garden in the cave it's possible to go canoeing on a mirror lake, among awe-inspiring formations.

Mr. Dill opened Meramec as a tourist attraction in 1935 and today it is the world's most successful privately owned cave.

The cave is specially lighted to cater to photography fans.
